A word from us

Danish Fencing Federation proudly welcomes you to the first Nordic Fencing Festival, the biggest fencing event in Denmark ever with more than 1000 fencers in more than 50 competitions. For the first time we gather all the categories of the Nordic Championships into one event. Since the idea of a Fencing Festival was developed 5 years ago, we have been looking forward to this week.

Our goal is to build a bridge of friendships between fencers from the North. In these troubling times it is important to increase the bonds between all the fencers of the whole Nordic Fencing Community.

We have many activities, besides fencing, planned for your stay. The biggest event during this week is the Dinner Fencing Saturday evening, where we fence the senior epee finals with a dinner party, where you and your family, for a reduced price, can eat and drink while watching the finals.

We also have exiting games and shows for you to join. Try for example to ride and electric skateboard, enjoy a classical pianist concert in the nearby concert hall, or join your comrades in a friendly floorball match.

A word from our partners and sponsors

The Danish Fencing Community are very honoured to be hosting The Nordic Fencing Festival. The prestigious title as Nordic Champion will be determined many times during the five days of fencing, and we are looking forward to seeing a lot of high-quality fencing during these days.

We hope that all participants during their stay will explore the Danish term “hygge”. The definition is quite wide, but it means something like cosiness and is best described when sharing good times with friends and family. We hope that you will enjoy new friendships and relish the small moments of happiness when winning a bout on the pist, tasting new flavours, manage to stay on top of an electric skateboard or feeling the music in your heart.

Jan Sylvest Jensen, President Danish Fencing Federation

Fencing is a sport that largely aligns well with LEMAN’s core values of respect, quality, and commitment. It is not only an individual sport but also a team sport. In addition, fencing – like freight forwarding – is a classic and traditional discipline, where healthy competition and a global outlook go hand in hand. Fencing is a sport that, among other things, develops your ability to concentrate, your mental balance, and your strategic sense, and these are skills that we also value highly in the forwarding industry. In short, it is something we would like to associate LEMAN with, which is why we were positive when we got the opportunity to support this big event as a sponsor.

Philippe Ziegler, chairman of LEMAN, main sponsor of Nordic Fencing Festival
